

PRIVATE & HYBRID VIRTUALIZATION THE ATOMIC CLOUD®

Together with VMware®, the global leader in virtualization and cloud infrastructure, we can help you build **the perfect cloud solution** — one that leverages your existing IT resources and aligns seamlessly with your specific needs.

PRIVATE VS. PUBLIC

The public cloud isn't for everyone. For those that demand higher degrees of control and transparency, The Atomic Cloud is the solution. Highly **secure**, highly **available**, and backed by 24x7 live support, The Atomic Cloud is a SOC 3® certified virtualization solution that you can trust.

WHY THE ATOMIC CLOUD?

- ▶ SOC 3® certified, SOC 2® Type II attested
- ▶ Know exactly where your data resides
- ▶ Geographically redundant infrastructure
- ▶ Built to meet compliance requirements
- ▶ Enterprise-grade infrastructure
- ▶ VMware virtualization layer
- ▶ Supports multiple platforms
- ▶ Rapidly scalable resources on demand
- ▶ Custom DR playbooks available
- ▶ Robust, custom backup plans
- ▶ SLA-backed solution
- ▶ Utilization-based billing

THE TRUSTED SOLUTION FOR:

Great Clips®
